

Donna Raditic DVM, DACVN, CVA Companion Animal Nutrition

SUNDAY NOVEMBER 5, 2017

*6 HOURS OF CONTINUING EDUCATION
For Veterinary Technicians and Veterinarians (Approval pending)*

CAPITOL PLAZA, MONTPELIER, VT

The VVTA is very proud to host the very talented and accomplished
Dr. Donna Raditic.

Dr. Raditic has lectured nationally and internationally. She is a regular speaker at
NAVC, ACVIM, AHVMA and many state associations.

Veterinary and pet nutrition have become a huge international industry and we
have “experts” in pet stores, grocery aisles, social media, clubs, agility classes, etc.
Our clients are hearing opinions everywhere. If we don’t put in our two cents there
are plenty of lay people to fill in the blanks. Their answers may not only be wrong
but may cause harm to your patients.

Dr. Raditic practices a “whole” istic approach to veterinary nutrition and enjoys
looking at the entire picture of an animal’s needs. Her extensive experience as a
hospital owner, medical director, and boarded nutritionist give a very balanced
view on today’s practices and client educational opportunities. Let’s take the
opportunity to teach within our exam rooms and care appropriately for sick
patients by thinking about, in, & outside the bag or can!

Topics:

- ❖ Assessing the patient, the diet, and feeding method
 - ❖ Understanding pet foods
- ❖ Facts, fallacies, and future of pet nutrition
 - ❖ Why cats are not small dogs
 - ❖ Supplements in Practice
